EXPERIENCE

Full Stack Developer Intern at Isnartech | [React](#), [Node.js](#), [Express.js](#), [MySQL](#) **Jun 2023 - Dec 2023**

School ERP Web Application

- * Built a Web App Portal for School ERP in MEAN Stack.
- * Developed numerous APIs that interface with the web developer's MySQL database.
- * Used NgRx for state management, Angular Router for navigation, and various Angular UI libraries to enhance the app's user-friendliness.
- * The app has been released and is compatible with both iOS and Android devices.

PROJECTS

Chat Application

- * Developed a real-time chat application using Angular for the frontend and Node.js with Socket.io for real-time communication.
- * Implemented features supporting both single and group chats.
- * Stored conversations in a MongoDB database, allowing group members to manage user access with control mechanisms.
- * Enabled secure login and registration using JSON Web Tokens (JWT).
- * Integrated search functionality to easily find and connect with users.

Automatic Attendance and Behaviour monitoring

- * Developed a complete website with frontend in Angular and backend in Node.js.
- * Collaborated with the AI Team to capture and analyze student frames and behavior.
- * Designed and implemented four key modules: Student, Teacher, Staff, and Admin.
- * Integrated essential features such as Login with OTP, Registration with Approval, and a Dashboard with 15 unique functions tailored for each user type.
